To : The Dean of Tarbiyah and Tadris Faculty

UIN Fatmawati Sukarno Bengkulu

In Bengkulu

Assalamu'alaikum Wr. Wb

After reading throughly and giving neccessary advices, herewith, as the advisors, we state that the thesis of :

Name : Hesy Dwi Fitriyanti

NIM : 1811230066

Title : "The Correlation Between Students' Motivation and Their Reading Comprehension at SMAN 1 Kota Bengkulu".

Has already fulfilled the requirements to be present before the the board of examiners (munaqosyah) to gain Bachelor English Education.

Thank you for the attention.

Wassalamu'alaikum Wr. Wb

DEDICATION

In the name of Allah the Beneficent and the Merciful, the final project is dedicated to:

1. My beloved parents (Mr. Haryanto (Alm), and Mrs.

Zuzana Erna Mulyati, love and respect are always for

them. Thanks a lot Bapak and Mamak for your love, pray,

advices, motivations, suggestions, support, care and

patience to make my education successful. I love you so

much Bapak and Mamak. You are the best parents my

life. May Allah SWT bless both of you always in the

world and in heaven as well.

2. My beloved sister Hetty Kurnianti and my brother in law

Sardi Pratama thank you for motivates, help, advices, love

and spirit during my education and also give me support

when I was feeling down and certainly my beautiful niece

Harika Auristela that always makes me happy.

3. My lovely brother Hafiizh Akbar. Thanks for your prayer

and support.

4. My first advisor Dr. Syamsul Rizal, M.Pd and My second

advisor Feny Martina, M.Pd who had given the guidance

till this thesis finished. Thank you very much for your

suggestions, corrections, and ideas during the process of

writing this thesis.

1. **My big family who always supports and motivates me, and also look at me by Allah's side. Thank you for always regarding me as a good and nice girl and for teaching me the real meaning of life.**

2. **My lovely friends (Anggun, Nanda, Chista, and Sisi). Thanks for support, help and gatherness. You are the best friends that I ever had and also my friends that cannot mentioned always giving support and helping me.**

3. **All of my lecturers UIN Fatmawati Sukarno Bengkulu.**

4. **All of my sweet classmates (VIII B) thanks for making wonderful story for 4 years**

5. **All my friends at English study program in academic 2018 who also prayed and gave encouragement.**

6. **All of people who ever been in my life and asked me "kapanwisudah?" thanks to always take care to me and giving aamiin in every duas that I pray to Allah SWT.**

7. **My Green Almamater UIN Fatmawati Sukarno Bengkulu.**

8. **Last but not least, I wanna thank me, I wanna thank me for doing all this hard work, I wanna thank me for never quitting, I wanna thank me for always being a giver, I wanna thank me for tryna do more right than wrong and I wanna thank me for having the strength and teamwork necessary to complete this thesis preparation. You did it!**

PRONOUNCEMENT

ACKNOWLEDGMENT

Alhamdulillah all praise be to Allah SWT, the single power, the Lord of the universe, Master of the day of judgment, God all mighty, for all blessings and mercies so that the researcher able to finish Thesis entitled: “The Correlation Between Students’ Motivation in Reading and Their Reading Comprehension at SMAN 1 Kota Bengkulu”. Peace in upon Prophet Muhammad SAW, the great leader and good inspiration of world revolution.

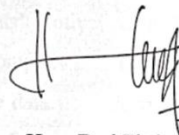

The researcher is sure that this thesis would not be completed without the helps, support, and suggestions from several sides. Thus, the researcher would like to expresses her deepest thank to all of those who had helped, supported, and suggested her during the process of writing this thesis. This goes to:

1. Prof. Dr. H. Zulkarnain, M. Pd as the Rector of UIN Fatmawati Sukarno Bengkulu
2. Dr. Mus Mulyadi, M. Pd, as the Dean of Faculty of Tarbiyah and Tadris UIN Fatmawati Sukarno Bengkulu
3. Risnawati, M. Pd as the Head of Tadris Department of UIN Fatmawati Sukarno Bengkulu
4. Feny Martina, M. Pd, as the Head of Program Study of English Education of UIN Fatmawati Sukarno Bengkulu

5. Dr. Syamsul Rizal, M.Pd as the first advisor for his guidance, precious, advices, and motivation for the researcher.
6. Feny Martina, M. Pd as the second advisor for her patient in advices the researcher.
7. All of lecturers who teach the researcher from first semester to eighth semester UIN Fatmawati Sukarno Bengkulu
8. All of staff administration of Faculty of Tarbiyah and Tadris UIN Fatmawati Sukarno Bengkulu

ABSTRACT

Hesy Dwi Fitriyanti, 2022. The Correlation Between Students' Motivation and Their Reading Comprehension at SMAN 1 Kota Bengkulu.

Advisor: 1. Dr. Syamsul Rizal, M.Pd

2. Feny Martina, M.Pd

This study's objective was to determine whether or not there was a significant correlation between students' motivation in reading and their reading comprehension. This research approach that used quantitative with research design was correlation. The population of this research was tenth grade science students at SMAN 1 Bengkulu, and the sample was the students of X IPA 3 that consisted of 36 students. The instruments of this research were questionnaires and test. The questionnaire was to measure students' motivation, and the test was to measure students' reading comprehension. After getting the data, the researcher analyzed the data used Pearson Product Moment Formula. The analysis was found out that there was a significant correlation between variables students' motivation and their reading comprehension. The correlation coefficient was the $r_{\text{value}} 0,966$ that was higher than $r_{\text{table}} 0,329$. The result indicated that the H_0 is rejected and the H_a is accepted.

Keywords: *Correlation, Motivation, Reading Comprehension.*

ABSTRAK

Hesy Dwi Fitriyanti, 2022. Hubungan Antara Motivasi Siswa dan Pemahaman Membaca Mereka di SMAN 1 Kota Bengkulu.

Pembimbing : 1. Dr. Syamsul Rizal, M.Pd

2. Feny Martina, M.Pd

Tujuan dari penelitian ini adalah untuk mengetahui ada atau tidaknya hubungan yang signifikan antara motivasi siswa dengan pemahaman bacaan mereka. Pendekatan penelitian yang digunakan adalah kuantitatif dengan desain penelitian korelasional. Populasi dalam penelitian ini adalah siswa kelas Sepuluh IPA SMAN 1 Bengkulu, dan sampelnya adalah siswa kelas X IPA 3 yang berjumlah 36 siswa. Instrumen penelitian ini adalah angket dan tes. Kuesioner untuk mengukur motivasi siswa dalam membaca, dan tes untuk mengukur pemahaman membaca siswa. Setelah mendapatkan data, peneliti menganalisis data dengan menggunakan Rumus Pearson Product Moment. Analisis menemukan bahwa ada hubungan yang signifikan antara variabel motivasi siswa dalam membaca dan pemahaman bacaan mereka. Koefisien korelasi adalah nilai $r = 0,966$ yang lebih tinggi dari $r_{tabel} 0,329$. Hasil tersebut menunjukkan bahwa H_0 ditolak dan H_a diterima.

Kata kunci: Korelasi, Motivasi, Pemahaman Membaca

CHAPTER I

INTRODUCTION

A. Background of Study

Motivation is an important supporting factor in language learning because learning will be more effective and efficient if it is pushed by motivation. This is supported by Santrock in (Imran, 2022) who states that Motivation refers to the process of energizing, directing, and sustaining behavior. It means that high motivation students will try to gain new knowledge and skills. Moreover, motivation also plays an important role in the teaching and learning process. As Sardiman in (Puspitarini & Hanif, 2019) said, motivation in the teaching and learning process could be defined as the overall driving force in students that causes learning activities that ensure the teaching and learning process takes place and provides direction in learning activities so that learning objectives can be met. (Dörnyei, 2018) states that motivation

defines the way and level of human behavior. Motivation is the willingness that encourages students to do something and is a crucial aspect that affects the results of the teaching and learning process. “It seems reasonable that the single greatest element that determines the effectiveness of their reading comprehension is the motivation that students experience in the classroom,” writes Harmer in (Marbun & Sipahuta, 2016). In sum, motivation is important for student learning success. Motivation affects students' learning and behavior, and students are motivated to learn more. Therefore, motivation is an important part of learning English. Students will get into trouble if they do not have enough motivation and motivation significantly influences them to achieve their goals.

Many studies have proven that motivation significantly influences student learning outcomes, including the research conducted (Rosmayanti & Yanuarti, 2018) entitled the relationship between Students' Motivation and their learning achievements. The subjects of this study were 88 second-

grade science students at Islamic high school in Cimahi City in the second semester of the 2018 academic year. This study used a quantitative correlational method. The writer used a questionnaire as an instrument to collect data and students' English scores from their English teachers. Data analysis using SPSS. From this study, the researcher found that this study showed that there was a positive relationship between students' learning motivation and their learning achievement. Based on the Pearson correlation data, the achievement is 0.580, which means the Medium Correlation. This shows that student achievement is influenced by student motivation. Further research was carried out by (Agustina et al., 2021), entitled *The Students' Motivation and Academic Achievement at Tertiary Level: A Correlational Study*. This study was designed using a quantitative correlational study and involved 39 students as participants. Questionnaires and document searches were conducted to collect data. The results of this study indicate that there is a positive relationship between

student motivation and student achievement. From the research described above, it can be concluded that motivation can affect student learning outcomes. Thus, the better their learning motivation, the better their English learning achievement.

Motivation also has an important role in students' reading comprehension achievements because to read, students need motivation. As stated by Takaloo and Ahmadi in (Hardiyanto et al., 2019), motivation is the most important quality that students must possess because when students are motivated to read, they will feel more at ease and interested in continuing to seek out new readings that will enrich their knowledge. According to Guthrie et al. in (Hardiyanto et al., 2019), motivation is a significant factor in determining a student's degree of reading achievement. Grabe and Stoller in (Hardiyanto et al., 2019) demonstrate how students' reading motivation is required to comprehend and increase students' reading comprehension. According to Wigfield and Guthrie,

quoted in (Hardiyanto et al., 2019) reading motivation analyzes whether students read more than others and how their behaviors can encourage others to read. Motivation in reading is essential because by reading we can find out various knowledge, without having to see it directly. According to Suharso in (Nursalina & Budiningsih, 2014), reading means seeing and understanding the content of what has been learned, predicting, writing, spelling or reciting, knowing, guessing, and calculating what has been written. Reading allows students to get more information to help them understand English better. According to Harmer in (Marbun & Sipahuta, 2016) reading is helpful for other purposes: At least, some languages have stuck in their heads due to of the learning process. If the reading text is exciting, the acquisition may be better and more successful. So, motivation is needed to encourage students' desire to read, because if students have the motivation to read, they will be enthusiastic

about what they are reading and continue to look for the readings they want to know.

As stated by Anne in (Dewi & Safitri, 2020) student motivation and reading ability are significant variables because they help student achievement and lifelong learning. Students need motivation to learn in class and in daily activities. Even though people know very well how important and useful reading is, many students still have not been able to make reading a routine. Based on the researcher's experience, when the researcher did an internship in September 2021 in class X IPA SMAN 1 Kota Bengkulu with an English teacher, Ma'am. Sri. The Teacher said that students were less motivation to read in class and get bored quickly. Many students ignored the teacher, most of them played with handphones and chat while the teacher was teaching. So, many students to be passive when faced with reading texts and students did not understand what they were

reading when the teacher tells them to read a text because their vocabulary was still lacking.

Finally, motivation in reading are two things that have a close relationship. Motivation can encourage students' desire to continue reading so that students have extensive knowledge and will improve student achievement. Based on the description above, the researcher is interested in conducting a study entitled "The Correlation between Students' Motivation and Their Reading Comprehension at SMAN 1 Kota Bengkulu".

B. Research Limitation

The purpose of this study was to determine the correlation between motivation and reading comprehension. As a result, the author's research focused on the correlation between students' motivation and their reading comprehension at tenth-grade science students SMAN 1 Kota Bengkulu.

C. Research Formulation

The researcher formulates of the statements of the problem in question form follows;

Is there any significant correlation between students motivation and their reading comprehension at tenth-grade science students SMAN 1 Kota Bengkulu?

D. Research Objective

In relation to the preceding assumption, the research aims to know:

To find out whether there is any significant correlation between students' motivation and their reading comprehension at tenth grade Science students SMAN 1 Kota Bengkulu.

E. Research Significant

At the end this research, the researcher hopes that it has some advantages to the teaching and learning process.

1. Theoretically Contribution

The conclusions of this study are intended to benefit students in particular, as well as readers in general, by putting knowledge and concepts into context and encouraging students to read more textbooks in order to gain a deeper comprehension of a subject.

2. Practically Contribution

- a. For the students, the researcher expects that this study will increase their motivation to read in order to improve their comprehension of lessons also othee things.
- b. For teacher, the writer expects that this study will serve as a resource for English teachers at SMA N 1 Kota Bengkulu to improve students' motivation and reading comprehension.
- c. The writer expects that the findings of this study might be utilized as a guide for people who want to conduct research in the field of English instruction,

particularly in the area of student reading comprehension.

CHAPTER II

LITERATURE REVIEW

A. Motivation

1. The Concept of Motivation

Motivation is essential for studying and achieving success in any field of human endeavor. According to Sadirman in (Sari, 2020) motivation may also be seen as encouragement for all students that leads to learning. As stated by Hasibuan in (Risqi et al., 2016) motivation is important because motivation is things that cause, channel, and supports behavior people to want to work hard and enthusiastically to achieve optimal results. According to Uno in (verawati, 2016) the meaning of motivation can be defined as all things that cause encouragement or enthusiasm. Thus, motivation is the impetus in a person to try to change in behavior for the better in meeting their needs and achieving success.

Motive is a person's internal driving force that motivates them to do particular things to accomplish specific objectives.' As a result, motivation is a person's desire to improve his behavior to meet his needs better. Some psychologists define motivation as a hypothetical construct to explain goal-directed behavior's desire, direction, intensity, and persistence. Concepts like the desire for achievement, affinity, habits, and a person's interest in something are all part of motivation.

Reading motivation is defined as one's goal, notion, or desire about the title, action, and outcomes of reading, Guthrie and his pals in (Syahfutra & Niah, 2019). Students with poor motivation will have difficulty reading in a foreign language. Motivation is an essential aspect of language learning. A motivated reader is not only a group of students that enjoy reading. Motivation refers to each individual's values, beliefs, and reading behavior. As a result, every student should understand all aspects of

reading motivation to improve their reading skills and achieve tremendous learning success.

2. Types of Motivation

Deci in (Brown, 2012) states that there are two types of motivation, namely:

a. Intrinsic Motivation

Intrinsically motivated activities have no evident benefit other than the activity itself. Internally satisfying outcomes, such as emotions of competence and self-determination, are the goal of intrinsically driven acts.

Intrinsic motivation is depicted as participation in an activity that is carried out only for its own sake not some external gain. When a person is intrinsically driven, someone is inspired to do something because it is enjoyable rather than because of external proddings, emphasis, or gifts (Ryan & Deci, 2000).

Intrinsic motivation is not the only type of motivation or even volitional activity in humans, but it is one of the most common and significant. Humans are energetic, curious, interested, and playful creatures from birth, and they do not need any external encouragement to study and explore. This intrinsic motivational drive is essential for cognitive, social, and physical development because acting on one's innate interests acquires knowledge and abilities. The proclivity for novelty, assimilation, and creative application of skills is not confined to childhood. However, it is a significant component of human nature that influences performance, perseverance, and creativity (Ryan & LaGuardia, in Ryan & Deci, 2000).

Students with full personal awareness diligently read every learning material and other useful reading material, so students become knowledgeable and broad-minded. Such conditions are conducive for new

students, and intrinsically concerned with the experience of receiving, especially digesting daily learning materials (Halidjah, 2019).

To sum up, intrinsic motivation is motivation in which a person's behavior is to do or achieve something for his own sake, not an external impulse.

Gage and Berliner in (Alfitriyani, 2019) stated that types of intrinsic motivation are interest, need, hobby and goal.

1) Interest

Students interested in studies will pay more attention to it and feel different. Interest is the element that determines a person's willingness to work or study actively. When students are interested in their studies, the learning process is more likely to be successful. Students will concentrate on their studies and meet their learning objectives. It is possible to conclude that

one of the components that can motivate someone to achieve something is interest.

2) Need

All that is required of humans is for them to live and prosper. Someone is motivated to act because it is in line with their requirements. Someone is driven to do and act to meet the demands of that want, so if it is related to their requirements, someone will be motivated to do something, thus the need is to urge someone to do activity, and the things they do pertain to their independence.

3) Hobby

Hobby is a special pleasure enjoyed in one's leisure time rather than as a primary occupation. As a result, a hobby is an activity that someone enjoys for fun and doing something to waste time.

4) Goal

In life, everyone has a goal. Prior to accomplishing anything, they create goals. A goal might lead to someone doing or not doing something connected to the goal. Students must understand and be able to choose the learning objectives they want so that students can be motivated during the teaching and learning process because it can be a great motivation for them. Students will make every effort to gain their goals if students understand and aware of the goals they want. Students must have goals they want to achieve because this will motivate them to achieve them.

b. Extrinsic motivation

Extrinsic motivation is pushed by the hope of a gifts from somewhere other than oneself. Despite the fact that those who consider punishment avoidance as

a task that might increase their sense of competence and self-determination may reap several intrinsic rewards (Deci in (Hardiyanto et al., 2019). Extrinsic motivation is a draft that applies when someone performs in a behavior because they want to gain a specific goal. Very different from intrinsic motivation contrasts with intrinsic motivation, which does something just for the reason of doing it or loving it, not for its utility value. For example, Extrinsically motivated students do their assignments for the reason that they fear parental punishment if they don't (Ryan & Deci, 2000). The encouragement that comes from outside the students to do well in reading is called extrinsic motivation. According to Sardiman in (Halidjah, 2019), extrinsic motivation are motives that are active and functioning because of external stimuli. Thus, the existence of teachers is very important, both

as a driving force, moderator, communicator, and as a facilitator of student reading activities.

As stated to Brown in (Sari, 2020), extrinsic motivation includes college students' desire to please their parents, their desire to succeed in a test, and peer-group influences.

To sum up, extrinsic motivation is motives that are active and functioning, due to external encouragement, and is a force that can encouragement someone to do an action.

Extrinsic motivation that arises can be caused by parents, teachers, and environmental situation.

1) Parents

Parents' attitudes will have a significant role.

Parents who pay attention to their children will find that they are more interested in studying and achieve better results.

2) Teacher

Because teacher will be the students' parents for as long as they attend school, teachers become the most important factor in maintaining a student's motivation. The teacher is an essential part of the teaching and learning process. The teacher is not only capable of teaching, but also of motivating and supporting students, causing them to study harder and be more motivated to learn.

3) Environment

The students' initial and ongoing motivation is influenced by their surroundings. If students are placed in an appealing class from the start of the learning process, it is possible that they will become more motivated. Students' concentration will be disrupted if they are in a terrible atmosphere (Alfitriyani, 2019).

3. Indicators of Motivation in Reading

Adopted from (Watkins & Coffey, 2004) there are eight factors that become indicators in Measurement of Motivation, there are:

a. Grades-Compliance

This component is made up of elements from the Compliance, Value, Recognition, and Interest factors. This component is also a source of extrinsic motivation and a source of concern for performance.

b. Involvement

This component is linked to general participation, but it focuses on specific reasons why people appreciate mystery novels. "Reading engagement is the sensation of engagement between readers and their reading materials, and it relates to the delight associated with reading various types of texts. When a reader enjoys reading activities, readers will most likely feel involved.

c. Social

Social factors of reading are factors that reflect aspects of reading. This feature is an intrinsic urge to interact with others through reading activities. The social dimension in reading motivation is defined as the link between academic accomplishment and social goals, social competence, and social responsibility. Reading's social dimension can sometimes be used to discover how individuals around the reader might accept themselves based on the knowledge gained from reading activities.

d. Competition

Reading Individual attempts to outperform others in reading activities are referred to as competition.

Competitive reading aspects motivate people to improve their reading skills in order to outperform their peers.

e. Reading work avoidance

This is the most visible and persistent component when it comes to reading motivation. This component explains why readers avoid reading and do not make it a habit.

f. Curiosity

As stated by Watkins and Coffey "curiosity refers to the desire to learn about a particular idea, and is linked to reading interest". This means that curiosity is the desire to know a reading and usually curiosity comes from a person's internal motivation to get information or read for the reader's pleasure.

g. Recognition

Reading Recognition is relevant to tangible forms of recognition such as teacher in reading. Recognition relates to relationships with other people or people around, both teachers and readers. Other people can

recognize someone as a good reader or not explain through this factor.

h. Efficacy

Efficacy refers to the beliefs of readers about their skill and determination in reading ruts. In this case, students believe that they have better abilities in reading between other subjects.

According to these indicators, the factors that motivate students to read can be found. Based on eight factors from reading motivation, Marley and Coffey made 45 questionnaires to measure student motivation in reading, known as the motivation for reading questionnaire (MRQ).

4. Function of Motivation

As stated by Syaiful Djamarah in (Sari, 2020) function motivation is as follows:

- a. Motivation as a chauffeur of action.
 - b. Motivation, as a motivator, will influence how students should approach their studies. Students who are disinterested in learning because something is going to be studied, which has not been studied, can be encouraged to study in order to find out.
 - c. Encouragement as an activator of actions is motivated.
 - d. The mind's intellectual processes with body, action, and mind are powerful, allowing it to understand what it has learned.
 - e. As a director of repairs, you need to be motivated.
 - f. The function of motivation is to direct precisely what content student actions in learning, students who are motivated are aware of what to do and what not to do.
5. Ways of Creating Reading Motivation

Teachers can also take actions that can encourage students' reading desire, namely as follows:

- a. Create a fun environment.
- b. Introducing new books.

- c. Arranging the learning environment so that it feels comfortable to read.
- d. Providing reading books that are appropriate to the needs of students and the level of expansion of students.
- e. Give awards to students who are diligent in reading.
- f. Give assignments to students to summarize quality books, and not less quality books.
- g. The summary should cover various types of books. By reading books with different varieties and styles of language, this will make students more interested in books, or at least eliminate the boredom of reading (Halidjah, 2019).

B. Reading Comprehension

1. The Concept of Reading Comprehension

Reading is the process of acquiring, comprehending, and retaining the information contained in a book (Nunan in Hardiyanto et al., 2019). It means that reading is a

method of obtaining information that is obtained efficiently through comprehension of written text.

In general, there are two types of skills in language learning: receptive and productive. The capability to listen and read is referred to as receptive skill, whereas the ability to speak and write is referred to as productive skill. Reading is a receptive skill in which students are exposed to written text and are introduced to it.

The activity of reading is a factor that determines the success for anyone. According to Nuttal (1996:40) quoted in (Rizal, 2017) comprehension is understanding what has been read rather than spelling words. Reading is defined as the interpretation of verbal symbols both orally and in writing. From Nuttal's statement, it can be concluded that there are two things, first, reading activity is understanding the reading text that is read by the reader, in this case reading is not just spelling or saying the words contained in the reading text. Second, reading activities

are important to know the meaning and interpret the language symbols that are printed in written form. In this case, the reader's cognitive ability is very helpful to accelerate the understanding of the text they read (Rizal, 2017). According to Moore in (Dewi & Safitri, 2020), reading comprehension is a complicated interaction between automatic and strategic cognitive processes that allows the reader to create a mental representation of the text..

Based on (Febriani & Jono, 2021) Reading Comprehension is the ability to comprehend what the reader reads. It means that the reader should ensure that they understand what the author wrote. Reading without comprehension appears to be a waste of time. As stated by Rawson and Kintsch in (Hardiyanto et al., 2019), reading comprehension is more than just a collection of processes that occur, but rather a holistic coordination and involvement of multiple processes in reading

comprehension. Reading comprehension in accordance with Grabe and Stoller in (Dewi & Safitri, 2020), is defined as the ability to comprehend information in a text and interpret it effectively. According to the concept above, when some people learn a new language, their goal is to comprehend it. Comprehension is a difficult subject to master, and the researcher believes that when students try to comprehend a book by reading it, it motivates them.

Based on the text above, reading comprehension is a reading activity to absorb information well from a reading and understand the meaning intended by the author.

2. Purposes of Reading

Grabe in (Syahfutra & Niah, 2019) also stated that reading can be used for a variety of purposes, including searching for information, learning, integrating information, evaluating, criticizing, and using information for general understanding (in many cases, reading for entertain or reading for interest). Reading for enjoyment

can include reading a comic book or a novel to refresh one's mind, as well as reading a road sign to know where to go or reading the manual to learn how to operate a machine. Furthermore, Rivers and Temperley in Nunan in (Syahfutra & Niah, 2019) stated that students read for a variety of reasons, including:

- a. To obtain information for a specific reason or because we are fascinated about certain topics.
- b. To obtain instructions on how to execute certain activities for our work or daily lives (e.g., knowing how an appliance works).
- c. To perform in a play, play a game, or solve a puzzle.
- d. To communicate with pals by letter or to comprehend business correspondence.
- e. To be aware of when or where something will occur, as well as what is available.
- f. To be aware of current or previous events (as reported in newspapers, magazines, reports).

- g. To have fun or excitement.
- h. In other words, when a reader engages in reading for a variety of reasons, those reasons also lead to the reader gaining the most important goal of reading: understanding.

3. Techniques of Reading Comprehension

There are four techniques of reading, namely

a. Skimming

Skimming is reading quickly to find out the general content of a passage. The general content referred to may be focused information, but it may also only serve as a basis for predicting whether the passage contains the information that has been determined.

b. Scanning

Scanning is reading quickly by focusing attention to find the reading section that contains the specified focus information and continuing to read the section

carefully so that the focused information is found correctly and can be understood correctly.

As stated by Maxwell in (Sari, 2020), scanning, described as the ability to find specific information and information quickly, is regarded as a suitable reading skill and is taught in the majority of developmental reading guides. Thus, skimming is a technique of reading quickly to find specific information in a reading.

c. Selecting

Selecting is the reader choosing the reading material and/or parts of the reading that are considered relevant, or contain the focus specified focus information.

d. Skipping

Skipping is when the reader wants to find out the relevant sections, the reader goes beyond or skips other sections (Dalman in Fatmasari & Fitriyah, 2018)

4. The Level of Reading Comprehension

Reading comprehension level is divided into four categories, as stated by Burns et al in Muhammad Situmorang's journal in (Riandry et al., 2018), namely:

a. Literal comprehension

Reading for literal comprehension is when you are looking for information that is directly stated in a selection. The essential themes are stated immediately in the text while reading literally. To grasp the author's precise meaning, the reader merely needs to understand exactly what is expressed. Literal comprehension is widely regarded as the simplest and most fundamental comprehension talent, requiring little thought and reasoning. It is critical to recognize stated major ideas, details, causes, effects, and sequences as the foundation, as well as to comprehend vocabulary, phrase meaning, and paragraph meaning.

b. Interpretation

Interpretive reading refers to the process of reading between the lines in order to make assumptions. This is the process of constructing ideas that are implied rather than stated explicitly. This level of comprehension necessitates the following skills:

- 1) identifying the main ideas of a passage in which the main ideas are not stated directly.
- 2) Determining cause and effect correlations when they are not stated explicitly.
- 3) Identifying pronoun referents.
- 4) Identifying adverb referents.
- 5) Inferring omitted words.
- 6) Detecting moods.
- 7) Determining the author's motivation for writing.
- 8) Make a conclusion.

c. Critical reading

Critical comprehension is the process of analyzing written content, comparing the ideas found in it to known standards, and generating opinions about their accuracy, appropriateness, and timeliness. The critical reader must be an active reader, asking questions, looking for facts, and deferring judgment until all of the material has been considered. They evaluate the author's ideas, which were identified through a lesser level of comprehension, and determine their validity or merit.

d. Creative reading

Reader must be able to think and use their imagination in creative reading. Creative reading is the reader going beyond what the author has written, applying the ideas of the text to new conditions, and recombining the author's ideas with other ideas to form new concepts or extend old ones. Even if it is not

stated directly, the readers must understand the cause-effect relation in a text. With creativ reading, the reader find new ideas, a solution to problems, or a new perspective on something based on the ideas the raeder gets from the text.

5. Indicators of Reading Comprehension

Reading comprehension is a complicated process that involves higher concentration, skill and understanding. According to (Harmer, 2018), the goal of reading influences numerous reading skills, they are as follows:

- a. Identifying the topic: The content of a written piece is easily grasped by great readers. They swiftly gain an understanding of what is being discussed with the help of their own plans. This feature enables readers to better process content as it goes.
- b. Predicting and guessing: Readers will often try to assume and grasp the subject of a piece of writing, particularly if the topic is the first thing they notice.

They glance ahead at times, attempting to foresee what will happen next; at other times, they make assumptions or estimate the content based on the initial view or half-reading.

- c. Reading for general understanding: That is, it does not pause for each word, nor does it examine what the author has written. Skimming is a phrase that is frequently used in conversations about reading (This entails observing the text in order to acquire a fast overview of the text's main points.).
- d. Reading for specific information: Scanning is a term used to describe this skill when it comes to reading. In contrast to reading for the core, we read for specialized information. In this situation, we almost disregard all other information until we reach a single piece of information, which is the item we're seeking for.

- e. Reading for detailed information: We read sometimes in order to fully comprehend what we're reading. Everything that is written is read in a concentrated manner.
- f. Interpreting text: Readers can see beyond the literal sense of words in a paragraph and deduce what the authors are expressing or suggesting using a number of clues. Readers get more from reading tests than the text alone reveal because they employ their imaginations as active participants

6. Influencing Factors of Reading Comprehension

According to Westwood in (Syahfutra & Niah, 2019), comprehension issues can be caused by a range of variables, including those inherent in the individual as well as those connected to insufficient teaching or inappropriate information. He lists eight elements that can affect understanding, including: (1) a lack of vocabulary knowledge, (2) a lack of fluency, (3) a lack of familiarity

with the subject matter, (4) the text's difficulty level (readability), and (5) insufficient use of effective reading strategies, (6) Poor verbal reasoning, (7) Information processing issues, and (8) Information memory issues after reading.

Finally, readers' language structure, vocabulary, metacognitive abilities, and knowledge all have an impact on reading comprehension. Individual reading challenges, such as a lack of vocabulary, fluency, and subject knowledge, as well as deficiencies in verbal reasoning, processing information, and memorizing information, can be mitigated by increasing these qualities.

C. Previous Study

The researcher considered several previous studies related to this research:

First, this research was conducted by (Parliyah & Khotimah, 2020) paper "The Relationship Between Student Motivation and Reading Comprehension of Class I Students

of SMPN 1 Cisarua West Bandung" was published in the Journal of PROJECT (Journal of English Education Professionals) in 2020. The goal of this study was to know if there is a link between students' learning motivation and their reading comprehension achievement. The methodologies used in this study were quantitative and correlational. In this study, thirty-two grade VII students from SMP Negeri 1 Cisarua in West Bandung Regency were used as the sample. A questionnaire to assess students' motivation to learn and a reading comprehension test were used to gather data for this study. The data was analyzed using Pearson Product Moment, and the correlation coefficient was 0.658, indicating that there is a substantial association between students' motivating learning outcomes and their reading achievement. It's labeled as having a high degree of correlation.

Second, the study entitled "The Relationship Between Learning Motivation and Reading Learning Achievement for Class X Students of SMAN 8 Bekasi," a study done by

(Puspitorini, 2021), was published in the Journal of IJEAL (International Journal of English and Applied Linguistics) in 2021. Researchers wanted to know if there was a link between learning motivation and reading comprehension achievement in this study. The survey method was utilized in this study by the researchers. This research was a quantitative analysis employing a questionnaire on a large number of objects, which means it is a questionnaire-based study. The population of this study was made up of 99 pupils in grade I SMAN 8 Bekasi, divided into three classes. The sample of this study used a basic random selection method to select 40 students from the whole population. The result was a correlation coefficient of 0.905, indicating that there is a substantial link between learning motivation and reading comprehension achievement. The entire pattern of relationships in the class X population as the target population can be described by the degree of association between

learning motivation and achievement in learning to read. SMAN 8 Bekasi's target population was included.

The last study was conducted by (Sari, 2020) research, "The Relationship of Student Motivation with Reading Comprehension in Semester II Students of English Language Education at Batanghari University," was published in the Journal of English Language Teaching in 2020 and aims to determine whether there is a relationship between students' learning motivation and reading comprehension. This research employs a descriptive qualitative method, which yields quantitative data that is then explained descriptively. A total of 30 people were polled for this investigation. The results revealed that 87 percent (26) of the people were in the good category, while only 13% (4) were in the bad category. 0% none have very good and very poor reading comprehension. The correlation coefficient between student motivation and reading comprehension is 0.71, which is higher than the correlation probability level of sig. 0.00. The

results of this research reveal that H_0 is both rejected and accepted. The result is that there is a link between students' enthusiasm to learn and their reading comprehension in second semester English Education students at Batanghari University. The result indicated that the H_0 is rejected and the H_a is accepted which means that there was a correlation between students' enthusiasm to learn and their reading comprehension in second semester English Education students at Batanghari University.

D. Theoretical Framework

Motivation is a willingness that encourages students to do something and has an important role in the teaching and learning process, especially in understanding reading comprehension. Students' reading motivation is one of the factors that affect their understanding because when reading some interesting texts they can have high motivation in reading to get reading comprehension. If students have high motivation in reading, they can read many books, come to the

library, borrow books, and buy books for some short articles, notes or summaries of knowledge and understanding of those who have read several books. “It seems plausible that the single greatest element that determines the effectiveness of their reading comprehension is the motivation that students experience in the classroom,” writes Harmer in (Marbun & Sipahuta, 2016). According to Guthrie et al. in (Hardiyanto et al., 2019), motivation is a significant factor in determining the level of student reading achievement.

Motivation is very interesting in the learning process, especially in reading. The problem with reading motivation is related to the students' own understanding. When reading without motivation, students find it difficult to understand what emerges from the text. Because the condition itself is not in the mood to read. No motivation also causes students to be lazy to read because they think reading is a boring activity to do. In fact, motivation plays an important role in the learning and knowledge of students in the world of

education. According to (Wigfield & Guthrie, 1997) motivation in reading is an important factor in students' achievement of reading comprehension and when students have low motivation, their reading comprehension is also low. This means that building motivation is an important first step in delegating students who will become readers. This is also reinforced by the results of the research described in the previous study. From the results of some of these studies, it can be seen that motivation does have a relationship with students' understanding. Motivation relates to students' achievement in reading English comprehension, and it will go better if the learners have a willingness to learn.

To better comprehend the above-mentioned theory, the following will be summarized in the form of a theoretical framework as simple as possible:

E. Hypothesis

According to Ary, et.al in (Marbun & Sipahuta, 2016), a hypothesis is a statement that describes a correlation between variables and is erroneously presumptively believed to be true. It identifies the observations that should be made in order to investigate a question. So, based on theoretical framework, so it can be concluded by proposing this hypothesis:

1. Ho: There is no correlation between students' motivation and their reading comprehension.
2. Ha: There is a correlation between students' motivation and their reading comprehension.

CHAPTER III

RESEARCH METHODOLOGY

A. Research Design

The researcher conducted a Correlation Research with using quantitative data approach. The quantitative approach is a method of gaining knowledge thru the use of numerical data as a tool to describe a subject. A quantitative research method is a type of research in wich the specifications are systematic, planned, and clearly structured (Sari, 2020). Correlation study, according to Ary et al. in (Marbun & Sipahuta, 2016), evaluates the correlations between two or more variables in a single group. The correlation method was best suited to this study because it employs two variables to determine the relationship between students' motivation and their reading comprehension. To determine the outcome, the author used Pearson Correlation Product Moment to assess the research.

B. The Time and Place of the research

The researcher conducted the research at SMAN 1 Kota Bengkulu. Located in JL. Kuala Lempuing Kec. Ratu Agung Kota Bengkulu. This research was conducted in April-Juni 2022.

C. The Population and Sampling

1. Population

As stated by Arikunto in (Marbun & Sipahuta, 2016). All members of a well-defined group of people, events, or things are referred to as the population. According to Newby in (Dewi & Safitri, 2020) population is larger cluster to which same typical of personality. It means that population is individual or participant have same typical o personality. Thus, population is the whole of the subjects of research. The researcher chooses the students of grade X science at SMA Negeri 1 Kota Bengkulu as part of the study's population.

Table 3.1

Population

No.	Class	Total
1.	X IPA 1	35
2.	X IPA 2	36
3.	X IPA 3	36
4.	X IPA 4	36
5.	X IPA 5	35
Total		178

2. Sampling

Arikunto in (Marbun & Sipahuta, 2016) explains a sample is a small group of people who are being studied. Based on Gay in (Syahfutra & Niah, 2019) sampling is the process of selecting a number of individuals or a study in such a way they represented the larger group from which they were selected. From the definition above, sample can be interpreted as part of the population, and can be said to be a representative of the members of population. If the total number of subjects is less than 100,

it is preferable to take all. And if the total number of subjects was greater than 100 then it be taken between 10-25% or 20-25% or more (Suharsimi, 2006).

Based on the explanation above, the researcher took the sample of 20%. The total number of class X IPA being 178 students, so the sample in this research were as many as 36 students.

In this research, the researcher used the purposive sampling. Purposive sampling is the sample taken with a specific purpose. Someone or something is taken as a sample because the researcher assumes that someone or something has the information needed for the research. Based on Sugiyono in (Marbun & Sipahuta, 2016) purposive sampling is a technique of determining the sample with particular considerations. So, the researcher 1 class be selected to be a sample to collect data. In this research, the criteria used as a requirement to become sample were students of class X IPA 3.

D. Variables of the Research

Creswell in (Ramadhanti et al., 2021) defines variables as "individual or organizational features or attributes that researchers measure or observe, as well as changes between individuals or organizations that researchers will explore". Variables are the primary concepts that researchers use to obtain data in order to meet their study's objectives. Variables in quantitative research can be divided into two, namely the independent variable and the dependent variable.

1. Independent Variable (X)

Independent variable is one that exists before the dependent variable. The independent variable in this study is students' motivation.

2. Dependent Variable (Y)

Dependent variable is the variable caused or influenced by the independent variable. The dependent variable in this study is students' comprehension in reading.

E. Technique of Data Collecting

1. Survey

As stated by Robert Groves in (Adiyanta, 2019), a leading survey expert, "surveys produce information by a statistical nature. Surveys are the most basic type of quantitative". Survey research involves asking several respondents about their beliefs, ideas, characteristics, and behavior that have occurred or are now occurring". Surveys provide questions for research on self-reported beliefs/beliefs or behavior. In surveys, information is collected from respondents using a questionnaire. Generally survey research is limited to research in which data is collected from a sample of the population to represent the entire population. Population Survey is thus a research that takes a sample from one population and uses a questionnaire as the main data collection tool.

Researchers conducted a survey by distributing questionnaires as a research instrument. This method is

very useful in quantitative research where the questionnaire becomes an effective and efficient forum for collecting data to be measured numerically later.

2. Test

According to Zainul & Nasution in (Sari, 2020), a test is a question or task or a series of tasks that are planned to obtain educational information about an attribute. A test is a systematic procedure for observing a person's behavior with the help of a numerical or categorical system. The test was used to collect data on students' reading comprehension.

Tests are useful to help teachers measure student achievement, determine student progress, motivate and direct students' tendencies and evaluate the learning process, whether or not it is good. In this study, the researcher gave a reading test paper to find out and get data about their learning achievement in reading comprehension.

F. Instrument of Research

The instrument of data collecting in this research were questioners and reading comprehension test.

1. Questionnaire

A questionnaire, according to Sugiyono in (Prawiyogi et al., 2021), is a data collection method in which respondents are given a set of questions or written statements to answer. The researcher instrument used in this research was a motivation reading questionnaire (MRQ) to determine the students' motivation in reading at SMA N 1 Kota Bengkulu in the tenth grade-science. The questionnaires were based on indicators of reading motivation and contain 45 items, each with four options on a scale of 1-4, with 1 (a very different from me), 2 (a little different from me), 3 (a little like me), and 4 (a lot like me). The writer explains and advises the students on what to do with the surveys before they fill out the questionnaire.

Table 3.2

Grid of Reading Motivation Questionnaire

N o	Variable	Sub Variable	Indicator	Items	
				+	-
1	Motivation	Intrinsic 1.Involvement 2. Curiosity 3. Efficacy	Involvement is the enjoyment that comes from reading various types of text.	11-18	
2			Curiosity the desire to know about text.	34-37	
3			Efficacy refers to the beliefs of readers about their skill and determination in reading ruts	42-45	
4		Extrinsic 1. Grades-compliance 2. Social 3. Competition 4. Reading Work Avoidance 5. Recognition	Grades-Compliance refers to reading motivation in order to receive positive school evaluation.	1-10	
5			Social is to connect with others through reading activity	19-25	
6			Competition is concernd with an individuals attempt to outperform others in reading.	26-29	
7			Reading Work Avoidance is the factor that has been identified as the reason why readers frequently avoid reading.		30-33
8			Recognition is important in tangible forms of recognition, such as teacher recognition in reading.	38-41	
Total items				45	

Adopted from (Watkins & Coffey, 2004)

Table 3.3

Motivation Reading Questionnaire Score for Each Item

MRQ (Motivation Reading Questionnaire)	Answer	Value	
		+	–
	A lot like me	4	1
	A little like me	3	2
	A little different from me	2	3
	A very different from me	1	4

Source: Wigfield et, al. 1996

2. Reading Comprehension Test Instrument

The test, as stated by Zainul and Nasution in (Sari, 2020), A test is a question or series of tasks designed to get an explanation of knowledge in education. As stated to Calongesi in (Sari, 2020), The test is one of the teachers' planned measurement initiatives to provide opportunities for students to exhibit their achievement and understanding in accordance to the goals that have been defined.

To assess the students' reading comprehension, the researcher utilizes a test. They were multiple-choice questions. To measure the students' reading comprehension, an objective test in the form of multiple choice questions was used in this study. There were 25 questions in all that will test students' reading comprehension. Each question has five possibilities (A,B,C, D and E). The researcher gave four points for correct answer and zero point for incorrect answer.

The reading comprehension test indicators were derived from Jeremy Harmer Theory. The following are the indicators:

Table 3.4**Grid of Reading Comprehension Test**

No	Variable	Sub Variable	Indicator	Items
1	Reading Comprehension	Identifying the topic	The content of a written piece is easily grasped by great readers. They swiftly gain an understanding of what is being discussed with the help of their own plans.	1, 5, 19, 23, 25
2		Predicting and guessing	Readers will often try to assume and grasp the subject of a piece of writing	3, 9, 12
3		Reading for general understanding	This entails observing the text in order to acquire a fast overview of the text's main points.	6, 10, 15, 24
4		Reading for specific information	In contrast to reading for the core, we read for specialized information.	4, 14, 21
5		Reading for detailed information	Read an information in detail	2, 7, 11, 13,
6		Interpreting text	Readers get more from reading texts than the text alone reveal because they employ their imaginations as active participants.	8, 17
	Total			25

G. The Technique of Data Analysis

The writer uses Karl Pearson's analytical technique to achieve the research results, which is why it is also known as the Pearson correlation technique.

1. Validity and Reliability of the Instrument

a. Validity test

Validity refers to one's ability to extrapolate the findings beyond the scope of the subject and circumstance to other situations (Nunan, 1995). Validity refers to the suitability, correctness, significance, and use of specific findings reached by researchers based on the evidence they have gathered (Fraenkel et al., 2006). From the definition above, validity is a test used to find out that the measuring instrument used in this research is valid and can be used for research.

b. Reliability test

The degree to which a test delivers consistent and accurate findings when conducted under the same settings is commonly defined as reliability (Hatch & Lazaraton, 1991). As stated to Muijs in (Rauatmaa, 2011), reliability refers to the degree to which test scores are free of errors during measurement. So, test reliability is used to find out that the instrument has a consistent ability to measure a test or questionnaire and can be used for research.

The concept of reliability is important when it comes to measuring. As a result, reliability is critical in determining whether or not the test is appropriate for measuring students' motivation and reading comprehension in this research.

2. Instrument Analysis

a. Result of Students' Motivation in Reading

Researchers analyze and categorize the scores of the questionnaire results from this study. Namely students' motivation.

b. Result of students' Reading Comprehension

Researchers analyze and categorize test scores that have been carried out from this study. That is students' reading comprehension achievement.

3. Normality and Linearity Test

As stated to (Creswell, 2015), the distribution of data (whether normal or not) determines which statistical test will be used to analyze the correlation hypothesis. The normality test was performed in this study to see if the data from the Wighfield reading motivation and comprehension assessments were normal or not. The data can be interpreted If p_{value} bigger than 0.05.

Whereas the linearity test is used to decide whether or not the data from the tests performed is linear. When the p_{value} is bigger than 0.05, the data will be inserted into linear, indicating that the two variables are linear.

4. Hypothesis Testing

a. Correlation Analysis

The researcher uses Karl Pearson's analytical technique to achieve the research results, which is why it is also known as the Pearson correlation technique. The purpose of this study is to see if there is a correlation between students' motivation to read and their reading comprehension.

The correlation formula used by the researcher is the Pearson Product Moment Correlation Formula.

The formula will be as follows:

$$r_{xy} = \frac{N \sum XY - (\sum X)(\sum Y)}{\sqrt{(N \sum X^2 - (\sum X)^2)(N \sum Y^2 - (\sum Y)^2)}}$$

r_{xy} = The Correlation Coefficient Between Reading
Motivation and reading comprehension

N = The Number of Respondents

X = The Students Score of Reading Motivation

Y = The Students Score of Reading Comprehension

ΣX = The Sum of Reading Motivation Score

ΣY = The Sum of Reading Comprehension Score

ΣX^2 = The Sum of Squares of Reading Motivation
Score

ΣY^2 = The Sum of Squares of Reading Comprehension
Score

$(\Sigma X)^2$ = The Squares of The Sum of Reading
Motivation Scores

$(\Sigma Y)^2$ = The Squares of The Sum of Reading
Comprehension Scores

ΣXY = Total Number of Reading Motivation Scores
and Reading Comprehension Score

CHAPTER IV

RESEARCH RESULTS AND DISCUSSION

A. Research Results

In this chapter, the researcher explained the results from the research, there were validity and reliability test, analysis result from two variables, normality test, Linearity test, and hypothesis test. The detail explanation of the result of the test above, it can be explained as the following details.

1. The result of try out validity and reability reading comprehension test
 - a. Validity test

It is critical for the researcher to validate the instrument before to conducting the study. Therefore, the researcher conducted instrument try out to confirm the validity and realibility of the instrument. To explore students' motivation in reading, a total of 35 test were tried.

Validity test from the research was determined by measuring the correlation between the value of rvalue from each participant's response and the value of rtable at a 5% level of significance, the value of rtable was 0,456. Every item was regarded valid if the rvalue was bigger than rtable at a level of significance of 5%, and invalid if the rvalue was smaller than rtable at a level of significance of 5%. The following explanation explains the outcome of the instrument try out.

Table 4.1
Result of Validity Test

Question	R Value	R Table 5%	Note
1	0,242	0,456	Invalid
2	0,303	0,456	Invalid

29	0,615	0,456	Valid
30	0,309	0,456	Invalid
31	0,464	0,456	Valid
32	0,132	0,456	Invalid
33	0,581	0,456	Valid
34	0,531	0,456	Valid
35	0,659	0,456	Valid

The table above shows that of the 35 test items above there were 25 valid items, namely items 4, 5, 7, 8, 9, 10, 13, 14, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 27, 28, 29, 31, 33, 34, and 35. Whereas Invalid items have 10 items, that was 1, 2, 3, 6, 11, 12, 15, 26, 30, and 32. Of the valid items above, there were 25 items that are ready to be used for data collection and the invalid items are removed.

b. The Reliability of Reading Comprehension Test

Instruments that had previously been pronounced valid were subjected to reliability tests. The Cronbach's Alpha formula was employed in this study to examine the reliability level of test items using the Statistical Package for Social and Science (SPSS). If alpha Cronbach is higher than r_{table} at a level of significance of 5%, the instrument is considered reliable. If alpha Cronbach's alpha is lower than r_{table} at a 5% level of significance, the instrument is not regarded reliable.

Table 4.2

Result of reliability test

Reliability Statistics

Cronbach's Alpha	N of Items
.937	25

According to the table above, the rvalue of Cronbach's Alpha for the reading comprehension test was 0.937.

2. Instrument Analysis

The researcher examined two instruments in this chapter. There were the result of motivation reading questionnaire and the result of reading comprehension test.

a. The Result of Motivation Reading Questionnaire

Table 4.3
Result of Motivation Reading Questionnaire

Respondent	Answer				Score
	4	3	2	1	
1	14	15	7	9	124
2	1	18	23	3	107
3	1	16	26	2	106

24	7	23	14	1	126
25	19	14	10	2	140
26	8	27	9	1	132
27	25	11	8	1	150
28	3	16	26	0	112
29	21	12	8	4	140
30	27	12	6	0	156
31	12	24	7	1	136
32	1	23	21	0	115
33	18	15	9	3	138
34	26	8	7	4	146
35	21	15	4	5	142
36	8	20	12	5	121
					4771

The respondents' descriptive statistical analysis of MRQ was shown below. The highest score was 161 while the lowest score was 106. The respondents' mean score was 135.53 with a standard deviation was 14.912.

Table 4.4
Descriptive Statistics of MRQ Score

Descriptive Statistics						
	N	Minimum	Maximum	Sum	Mean	Std. Deviation
Motivation	36	106	161	4771	132.53	14.912
Valid N (listwise)	36					

The questionnaire revealed that the three levels of reading motivation were all perceived differently by the students. The following were the specifics:

Table 4.5
Distribution Students Reading Motivation

Score						
		Score interval	Frequency	Percent	Valid Percent	Cumulative Percent
Valid	High	147-above	6	16.7	16.7	16.7
	Medium	118-146	23	63.9	63.9	80.6
	Low	117-below	7	19.4	19.4	100.0
	Total		36	100.0	100.0	

The result showed that there were 6 students (16,7%) who were highly motivated, and 23 students (63,9%) who were medium motivated. 7 students (19,4%) were identified as low motivation. In conclusion, the questionnaire revealed that medium motivation was the most perceived type of reading motivation.

b. The Result of Test Reading Comprehension

Table 4.6
Result of reading comprehension

Respondent	Answer		Total
	Correct	Incorrect	
1	16	9	64
2	11	14	44
3	11	14	44
4	21	4	84
5	12	13	48
6	22	3	88

17	21	4	84
18	15	10	60
19	13	12	52
20	16	9	64
21	14	11	56
22	16	9	64
23	17	8	68
24	16	9	64

Respondent	Answer		Total
	Correct	Incorrect	
25	19	6	76
26	17	8	68
27	20	5	80
28	11	14	44
29	19	6	76
30	21	4	84
31	17	8	68
32	10	15	40
33	18	7	72
34	20	5	80
35	17	8	68
36	15	10	60
			2396

The descriptive statistical analysis of reading comprehension for the respondents was shown below. The maximum score was 88, and the lowest score was 40. The respondents' mean reading comprehension score was 66.56 and the standard deviation was 13.595

Table 4.7
Descriptive statistics of reading comprehension

Descriptive Statistics						
	N	Minimum	Maximum	Sum	Mean	Std. Deviation
Reading Comprehension	36	40	88	2396	66.56	13.595
Valid N (listwise)	36					

Then, it was revealed that from the test, the five level of reading comprehension were all perceived by the students with different number. The details were as follow:

Table 4.8
Distribution of students reading comprehension

Score						
		Score interval	Frequency	Percent	Valid Percent	Cumulative Percent
Valid	very high	88	2	5.6	5.6	5.6
	High	73-87	10	27.8	27.8	33.3
	Medium	60-73	16	44.4	44.4	77.8
	Low	46-60	3	8.3	8.3	86.1
	very low	45-below	5	13.9	13.9	100.0
	Total		36	100.0	100.0	

The result showed that there were 2 students (5,6%) who were indicated as very high in reading comprehension. 10 students (27,8%) who were indicated as high in reading comprehension. 16 students (44,4%) who were indicated as medium in reading comprehension. 3 students (8,3%) who were indicated as low in reading comprehension and 5 students (13,9%)

who were indicated as very low in reading comprehension. In conclusion, it was classified medium which was the most frequent level of students' reading comprehension.

B. The Result of Normality and linierity Test

a. Normality Test

Normality testing is used to determine whether or not data has a normal distribution. The normality of the instrument was demonstrated using a one-sample Kolmogorov-Smirnov test. The data were categorized normal if it has a significance value more than 0.05. If a significance value less than 0.05, it means that data were not normal. The result test can show in Table

Table 4.9**Results of normality**

One-Sample Kolmogorov-Smirnov Test			
		Motivation	Reading Comprehension
N		36	36
Normal Parameters ^a	Mean	132.53	66.56
	Std. Deviation	14.912	13.595
Most Extreme Differences	Absolute	.077	.120
	Positive	.077	.090
	Negative	-.067	-.120
Kolmogorov-Smirnov Z		.464	.719
Asymp. Sig. (2-tailed)		.982	.679
a. Test distribution is Normal.			

The result of normality test show in the table indicated that the data from each variable were all normal since the significance 0,982 for students' motivation and 0,679 for reading comprehension were higher than 0,05.

b. The Result of Linierity Test

The purpose of the linearity test is to identify the relationship between motivation and reading comprehension test variable in the form of a straight line that is linear or non-linear. To show the linearity of instrument, the researcher used One-way Anova test. If significance or pvalue $> 0,05$, the data was classified as linear. If pvalue $< 0,05$ it was means that data were not linear. The result of linearity test show in table.

Table 4.10
Results of linierity

ANOVA Table							
			Sum of Squares	Df	Mean Square	F	Sig.
Reading Comprehension * Motivation	Between Groups	(Combined)	6343.556	24	264.315	23.198	.000
		Linearity	6031.409	1	6031.409	529.352	.000
		Deviation from Linearity	312.146	23	13.572	1.191	.395
	Within Groups		125.333	11	11.394		
	Total		6468.889	35			

According to the table above, the significance level of deviation from linearity was 0.395, which was higher than 0.05. As a result, it was possible to conclude that there was a significant linear relationship between motivation and reading comprehension.

C. Hypothesis Testing

1. Correlation Analysis

To find out whether there is a relationship between students' motivation and reading comprehension at SMAN 1 Kota Bengkulu has been tested using a product moment.

Table 4.11
Data on Variables X and Y Obtained From SMAN 1 Kota Bengkulu

NO	Motivation (X)	Reading Comprehension (Y)	X^2	Y^2	XY
1	124	64	15376	4096	7936
2	107	44	11449	1936	4708
3	106	44	11236	1936	4664
4	149	84	22201	7056	12516
5	113	48	12769	2304	5424

NO	Motivation (X)	Reading Comprehension (Y)	X ²	Y ²	XY
6	160	88	25600	7744	14080
7	121	60	14641	3600	7260
8	142	76	20164	5776	10792
9	146	80	21316	6400	11680
10	115	44	13225	1936	5060
11	124	64	15376	4096	7936
12	139	72	19321	5184	10008
13	146	80	21316	6400	11680
14	161	88	25921	7744	14168
15	137	68	18769	4624	9316
16	131	64	17161	4096	8384
17	150	84	22500	7056	12600
18	123	60	15129	3600	7380
19	115	52	13225	2704	5980
20	131	64	17161	4096	8384
21	119	56	14161	3136	6664
22	127	64	16129	4096	8128
23	131	68	17161	4624	8908
24	126	64	15876	4096	8064
25	140	76	19600	5776	10640
26	132	68	17424	4624	8976
27	150	80	22500	6400	12000
28	112	44	12544	1936	4928
29	140	76	19600	5776	10640
30	156	84	24336	7056	13104
31	136	68	18496	4624	9248
32	115	40	13225	1600	4600
33	138	72	19044	5184	9936
34	146	80	21316	6400	11680
35	142	68	20164	4624	9656
36	121	60	14641	3600	7260
	$\Sigma X = 4771$	$\Sigma Y = 2396$	$\Sigma X^2 = 640073$	$\Sigma Y^2 = 165936$	$\Sigma XY = 324388$

From the table above it can be seen:

$$\begin{array}{lll} \sum N = 36 & \sum X^2 = 640073 & \sum Y^2 = 165936 \\ \sum X = 4771 & \sum Y = 2396 & \sum XY = 324388 \end{array}$$

From the data variable X and variable Y above, then it was process to find out the correlation between students' motivation in reading and reading comprehension in SMAN 1 Kota Bengkulu used product moment formula as follows:

$$r_{xy} = \frac{N \sum XY - (\sum X)(\sum Y)}{\sqrt{(N \sum X^2 - (\sum X)^2)(N \sum Y^2 - (\sum Y)^2)}}$$

$$r_{xy} = \frac{36 \times 324388 - (4771)(2396)}{\sqrt{(36 \times 640073 - (4771)^2)(36 \times 165936 - (2396)^2)}}$$

$$r_{xy} = \frac{11677968 - 11431316}{\sqrt{(23042628 - 22762441)(5973696 - 5740816)}}$$

$$r_{xy} = \frac{246652}{\sqrt{(280187)(232880)}}$$

$$r_{xy} = \frac{246652}{\sqrt{65249948560}}$$

$$r_{xy} = \frac{246652}{255440}$$

$$r_{xy} = 0,966$$

According to the above calculations, the r_{xy} (correlation coefficient) between students' motivation and reading comprehension was 0.966. To determine whether there is a correlation between students' motivation in reading and reading comprehension in SMAN 1 Kota Bengkulu, it was continue by interpreting r_{xy} (correlation coefficient) with the table value "r" Product Moment.

From the table value product moment, was know N as 36 , then proceed by looking at the value of the table r product moment , it turns out that N of 36 at a significant level of 5 % was 0.329. It can be indicated that there was a significant correlation between students' motivation in reading and reading comprehension in SMAN 1 Kota Bengkulu which the r_{value} 0,966 was higher than r_{table} 0,329. It means that H_a accepted. So, there was a correlation between students'

motivation and reading comprehension at SMAN 1 Kota Bengkulu and H_0 hypothesis was rejected.

Based on the above provided information, the researcher would interpret the coefficient correlation category according to the following standards:

Table 4.12
Interpretation of Product Moment Score

Coefficient of Correlation “r”	Interpretation
0.00—0.20	The Correlation is Neglected
0.20—0.40	The Correlation is Weak
0.40—0.70	The Correlation is Strong Enough
0.70—0.90	The Correlation is Strong
0.90—1.00	The Correlation is Very Strong

According to the correlation above, the researcher came to the conclusion the correlation between between students' motivation in reading and reading comprehension in SMAN 1 Kota Bengkulu had a significant correlation with the score correlation 0,966 and it was clasified as very strong correlation.

B. Discussion

The researcher would like to discuss and interpret the research results in this section. The writer concludes that there was a significant relationship between students' learning motivation and their reading comprehension achievement. The students' reading motivation test used a questionnaire and the test was conducted for students' reading comprehension. which is calculated by Pearson product moment formulation was 0.966 . It is classified into very high correlation. The results of the study can be interpreted that students' motivation has a moderate effect on learning achievement in reading comprehension. Students who have motivation towards English affect their willingness to read and their participation and commitment to study well because motivation is one of the factors that determine the success of failure in learning a second language which can affect the frequency of using learning strategies, willingness to learn, and persistence in learning.

The participants in this study were 36 students ($N = 36$). From the results of the study, it was known that the value of students' reading motivation Based on likert scale there were 6 students (16,7%) who were indicated as highly motivated, then, there were 23 students (63,9%) who were indicated as medium motivated. And 7 students (19,4%) who were indicative of low motivation. According to the results of the questionnaire, medium motivation was the most perceived type of reading motivation. Next, The results of the reading comprehension test there were 2 students (5,6%) who were indicated as very high in reading comprehension. 10 students (27,8%) who were indicated as high in reading comprehension. 16 students (44,4%) who were indicated as medium in reading comprehension. 3 students (8,3%) who were indicated as low in reading comprehension and 5 students (13,9%) who were indicated as very low in reading comprehension. In conclusion, it was classified medium which was the most frequent level of students' reading

comprehension. According to the hypothesis above, it showed the hypothesis was accepted . From the coefficient test above could be known that because $r_{xy} = 0,966 > r_{table\ 5\ \%} = 0,329$. So $r_{xy} > r_{table\ (5\ \%)}$. As a result, it can be concluded, there was a correlation between students' motivation in reading and their reading comprehension achievement in SMAN 1 Kota Bengkulu.

Student motivation affects students' reading comprehension and grade x science at SMAN 1 Bengkulu city. This statement was consistent with several research findings, such as: Parliyah and Tanty Khotimah's paper "The Relationship Between Student Motivation and Reading Comprehension of Class I Students of SMPN 1 Cisarua West Bandung" was published in the Journal of PROJECT (Journal of English Education Professionals) in 2020. Ferawaty Puspitorini and Haris Hamdani, was published in the Journal of IJEAL (International Journal of English and Applied Linguistics) in 2021. Next the study entitled "The

Relationship Between Learning Motivation and Reading Learning Achievement for Class X Students of SMAN 8 Bekasi," . Rita Sari's research, "The Relationship of Student Motivation with Reading Comprehension in Semester II Students of English Language Education at Batanghari University," was published in the Journal of English Language Teaching in 2020. Based on these studies, it is known that there is a significant correlation between students' motivating and their reading comprehension this is also the same as the results of research conducted by researchers. However, there is something that distinguishes this research from other research, namely the difference in the method used by Rita Sari, which uses a qualitative method while this study uses a quantitative method. Another difference is in the sampling technique used by Ferawati which uses a simple random side technique while this study uses purposive sampling. In addition, there are differences in the focus of the research studied. The focus of this research is in terms of the

object to be studied. In this case, the object of this research is the students of class X IPA SMAN 1 Bengkulu City. In addition, the researcher chose this topic to help teachers realize how important motivation is in students' reading comprehension.

The researcher hopes that this research can provide a reference for teachers in teaching English in high school to improve their students' motivation and reading comprehension. Schools and teachers are expected to increase their contribution in an effort to improve student achievement and attention to student learning motivation. The researcher also hopes that this research will have another positive impact, namely it can make an evaluation of English teachers to improve students' motivation and reading comprehension. The results of this study can be used as input for the school and SMAN 1 teachers to pay attention to students' motivation and reading comprehension. This research is also expected to increase knowledge as

prospective teachers. The results of this study can stimulate their motivation in reading to get better results understand the lesson as well as other things. The results of this study can be a stepping stone to improve students' reading comprehension. In addition, this research is also expected to be useful as a reference for future researchers who want to conduct similar research.

The implication of this research on reading is to explain that reading comprehension will be higher if students' motivation in reading is also high and vice versa if reading motivation is low it will have an impact on students' low reading comprehension and this will lead to their lack of knowledge. Reading Comprehension is a skill that must be practiced on a regular basis, so students should practice the techniques regularly in reading activities to boost their reading motivation and eliminate barriers to reading, their ability in reading comprehension will increase. The results of this study can be used as a reference for further research and

will add to the understanding of other authors when they want to write about research on the relationship between internal motivation reading and comprehension in reading comprehension in various fields or levels and will help improve writing and this research will provide an overview of understanding related to the problems in this research.

CHAPTER V

CONCLUSION

A. Conclusion

After the research was conducted at the class X Science students of SMAN 1 Kota Bengkulu, the major resultss are summarized as follows.

First, the students' motivation level in reading comprehension at class X Science students SMAN 1 Kota Bengkulu was high. The category table for students' reading motivation shows that the mean was 13,53 , which was in the medium motivation range (118 – 147). As a result, it is possible to conclude that students' motivation in reading comprehension was medium.

Second, based on an analysis of students' reading comprehension achievement, the researcher discovered that the quality of reading comprehension at X grade Science students of SMAN 1 Kota Bengkulu of was medium. According to the category table of students' achievement in

reading comprehension, the mean was 66,56 , which was in the medium range (60-73).

Third, the writer concludes that the null hypothesis (H_0) is rejected and the alternative hypothesis (H_a) is accepted based on the hypothesis testing described above. It can be seen from the result of r_{xy} is 0.966 with the N is 36.

The result of r_{table} of the degree of significance 5% = 0.329 .So $r_{xy} > r_t$ ($0.966 > 0.329$).

The author concludes that this research provides an answer to the research question, "Is there a significant relationship between students' reading motivation and their reading comprehension?" The response is that there is a significant correlation between students' reading motivation and their reading comprehension with the very strong correlation.

B. Suggestion

Based on previous results from this study, the researcher makes some recommendations to the students, teachers,

principal, and researcher. In order to improve students' reading comprehension, the researcher would like to encourage students to continue developing their reading motivation. The researcher would like to make some suggestion to English teachers in order to improve students' motivation or reading habit. The teacher should teach students on the importance of reading in order to fulfill to their role as a motivator for the students. The principal can also motivate their students to succeed by encouraging them to achieve the expected academic results. Furthermore, other researchers can conduct the research by applying student motivation to other variables or applying the same variables to different samples to obtain a better result.

Information about test:

1. This reading comprehension test is made to complete a research.
2. The information that is obtained from this test is the basis to analyze how much students' reading comprehension.

Read the text and answer the questions.

The following text is for Question 1-5

The Rats and The Elephants

Once upon a time there lived a group of mice under a tree in peace. However, a group of elephants crossing the jungle unknowingly destroyed the homes of all the rats. Many of them were even crushed to death.

Then the king of rats decided to approach the elephant's chief and request him to guide his herd through another route. On hearing the sad story, the elephant's king apologized and agreed to take another route. And so the lives of the rats were saved.

One day elephant-hunters came to the jungle and trapped a group of elephants in huge nets. Then the elephant king suddenly remembered the king of the rats. He summoned one of the elephants of his herd, which had not

been trapped, to go seek help from the king and told him about the trapped elephants.

The rat's king immediately took his entire group of rats and they cut open the nets which had trapped the elephant's herd. The elephant herd was totally set free. They danced with joy and thank the rats.

1. What the type of this text ?
 - a. A narrative text
 - b. A description text
 - c. A recount text
 - d. An anecdote text
 - e. announcement
2. What destroyed the homes of all rats?
 - a. A group of mice did
 - b. The hunter did
 - c. Elephant-hunter did
 - d. A group of elephant did
 - e. Human
3. What helped the elephant's herd free?
 - a. The elephant-hunter did
 - b. The hunters did
 - c. The trapped elephants did
 - d. Entire group of rats did
 - e. Lion
4. What is generic structure of "once upon a time there lived a group of mice under a tree in peace"?
 - a. Identification
 - b. Orientation
 - c. Complication
 - d. Resolution
 - e. Ending
5. At the end of the story, how was the elephant's herd?
 - a. Angry

- b. Sad
- c. Happy
- d. Dead
- e. Healthy

Questions 6-8 refer to the following announcement!

Police are trying to locate Miss Elsie Pearson, age 70, who disappeared from Kurnia's Home for the Elderly on Wednesday night. Miss Pearson is 165 centimeters tall, weights 100 kilograms, and has short brown hair. She wears thick glasses, has a light complexion, and brown eyes. When last seen she was wearing a short blue jacket, brown slack and black shoes.

- 6. Which statement is **true** about Miss Pearson?
 - a. She is an old lady
 - b. She was wearing a blue dress
 - c. She has brown hair and black eyes
 - d. She left Kurnia's Home in the morning
 - e. She is alone
- 7. How is miss Pearson's appearance?
 - a. She's overweight
 - b. She's ideal weight
 - c. She's slim
 - d. She's Tiny
 - e. She's mad
- 8. What is the announcement about?
 - a. A missing person
 - b. A police's research
 - c. kurnia's Home for ederly
 - d. Miss Pearson's appereance

e. A helper

Question for number 9-11

To : Mr. Andi

From : Director

Subject : Meeting

Date : February 5th, 2019

Please attend the meeting with Mr. Roni at the Hotel Bringin on Friday, February 8th 2019 at the 8 a.m. on behalf of the director. Looking forward to your report upon the completion of the meeting.

9. Who wrote the memo?

- a. Manager
- b. Mr. Roni
- c. Mr. Andi
- d. The secretary
- e. Director

10. When the meeting will be held?

- a. Friday
- b. Sunday
- c. Monday
- d. Saturday
- e. tuesday

11. What is the purpose of the memo?

- a. Giving information to Mr. Roni
- b. To ask Mr. Roni to come to the hotel
- c. Asking Mr. Andi to come the meeting
- d. Telling the director to have a meeting
- e. To ask director to go out

Question for number 12-14

Are you familiar with Microsoft Corporation? It is the computer software company in the United States. The software is popular around the world. It is useful to do the office jobs and the others. Do you know who founded Microsoft? He is Bill Gates.

Bill Gates is an America business executive. He has been the chairman of Microsoft Corporation for years. Gates was born in 1955. He cofounded Microsoft in 1975 with high school friend Paul Ailen. The company's success made Gates one of the most influential figures in the computer industry. Eventually, he becomes one of the richest people in the world.

In June 2006, Gates announced that he would begin transitioning from a full time role at Microsoft to a full time role at the Bill & Melinda Gates Foundation. He relinquished his title of chief software architect to Ray Ozzle, a veteran leader in computer technology and creator of Lotus Notes. Gates planned to remain chairman of Microsoft and to continue as its largest shareholder, but he said that by July 2008 he would have only a part time role at the company he cofounded.

12. what happened in 1955?
 - a. The Microsoft was cofounded
 - b. Bill Gates was born
 - c. Bill Gates retired
 - d. The first computer was built
 - e. Paul Allen was Gates best friend
13. Which statement is **not** true about Bill Gates?
 - a. The chairmen of Microsoft
 - b. A computer programmer
 - c. The richest person in the world
 - d. Co-found Microsoft
 - e. An American business executive

14. The text talks about.....
- a. Microsoft
 - b. American Business executive
 - c. Bill Gates
 - d. The richest Person
 - e. Lotus notes

Question for number 15-18

How to Make Apple Juice

First, choose the sweet apples. Then, core the apples and chop them. After that, prepare the jar. Next, cook the apples. Turn the stove on the high. Once the water is boiling well, turn down and continue to cook until the apples are soft. Then, strain the apples. You can run it through a sieve or colander. After that, heat the juice on the low until you've collected enough juice to fill the jars. And finally, can the juice into canning jars.

15. What kind of this text?
- a. Letter
 - b. Report text
 - c. Recount Text
 - d. Announcement text
 - e. Procedure text
16. What is being informed?
- a. How to make apple jam
 - b. How to make apple juice
 - c. How to sell an apple juice
 - d. How to choose sweet apples
 - e. How to make a jars
17. What is the meaning of word "choose"?
- a. Cut
 - b. Move

- c. Select
- d. Collect
- e. Mix

18. How many steps in there to make apple juice?

- a. Nine
- b. Eight
- c. Five
- d. Four
- e. Eleven

Question for number 19-22

Lions are the most dangerous animals. I saw in the safari park last month. There are some lions lying in relax. Lion are carnivores. They eat meat only by hunting. They do hunting individually or in groups. When the prey is small and weak, they do hunting individually. But when it is large and strong they need to hunt in groups. Only female lions do the hunting while the male just take the meat from them.

19. What is the text about ?

- a. Tiger
- b. Crocodile
- c. Dog
- d. Lion
- e. Ant

20. When does the writer visit to safari park ?

- a. Last week ago
- b. On tuesday
- c. Last year ago
- d. On Sunday
- e. Last month ago

21. Only female lions do the hunting means

- a. The male lions do hunting for the female
- b. The male lions do hunting by themselves

- c. The female lions do hunting by themselves
 - d. The female lions just take the meat
 - e. No one do the hunting
22. "It is large and strong" the synonym of strong is
- a. Successful
 - b. Warmful
 - c. Peaceful
 - d. Harmful
 - e. Powerful

The following text is for questions number 23-25

Hello my name is Gita Iswara sekarwangi. I am one of of the students at SMA Al Kamal. I was born on Tangerang, December 1st 2004. I am 15 years old and in December I am going to be 16 years old. My dream is to be a renowned scientist like Einstein.

My father works as a physics teacher, while my mother works as chemistry teacher. Since childhood, I was given a lot of learning about physics and chemistry by my parents. So , I know a little about the sciences and if you want to learn, let's learn together. Thank you

23. What kind of the text is it ?
- a. Congratulation
 - b. Invitation
 - c. Introduction
 - d. Greeting
 - e. Announcement
24. What is the writer's dream ?
- a. To be an artist
 - b. To be a chemistry teacher
 - c. To be a musician
 - d. To be an architect
 - e. To be a scientist
25. Where does the writer come from ?
- a. Tenggarong
 - b. Tangerang
 - c. Tasikmalaya

- d. Timika
- e. Tulung Agung

The following text is for number 26-30

Why Should Wearing a Helmet When Motorcycling?

We often hear lots of stories from road regarding people taking spill on motorcycle when they are riding without using helmet. Mostly the riders badly end up in mess. Wearing a fitted protective helmet offers many benefits which reduces the negative aspect of ridding. First and the most important is that wearing the correct helmet can save a rider's life, physical ability, family pain, and money. The recommended designs of motorcycle helmets can provide total protection. They not only protect riders from getting a worse road injured accident but also from flying bugs, such as rain, sleet, mud and other potential projectiles.

Second, wearing a helmet can gives the riders a matter of style. Helmet can give the opportunity for rider to express the image they may want to project when riding on they way. This benefit may not be important to some people, but others, it means a lot and important. By choosing the most appropriate helmet from all of the various styles, such as beanie, shortly, German, and many others, wearing a helmet which can projecting an image is an inherent crucial part of motorcycling and help riders feel more confident when riding on the road.

However, what most important is wearing helmet when riding is a matter of using it properly. Bikers should use the helmets on the head without settling them properly. The bikers should fassten the helmet correctly to their head in order to get safe and comfort.

26. Below is **not** the risk of motorcycle rider besides road accident ...

- a. Mud
- b. Rain
- c. Sleet
- d. Sleepy truck driver
- e. Slow

27. What is the main function of helmet?

- a. Effective
- b. Protection
- c. Efficiency
- d. Support system
- e. warm

28. “Helmets give the opportunity for rider to express the image they may want to project when riding on they way”

The aspect which can be the helmet’s function is ...
Aspect.

- a. Protection
- b. Efficiency
- c. Stylistic aspect
- d. Support system
- e. Fashion

29. “By choosing the most appropriate helmet from all of the various styles, such as beanie, shorty, German, and many others.”

The antonym of the underline word above is ...

- a. Serve
- b. Multi
- c. Single
- d. Several
- e. Kind

30. The next above shows the expression of ...

- a. Giving the invitation
- b. Giving a suggestion
- c. Giving the letter
- d. Giving an offer
- e. Giving direction

The following text is for number 31-35

The Lion and The mouse

Once when a lion was asleep, a little mouse began up and down upon him; this soon awoke the lion, who placed his huge paw upon the mouse, and opened his big jaws to swallow him.

“Pardon, O King “cried the little mouse “forgive me this time. I shall never forget it: who knows I may be able to do you a good turn some of these days? ”. The lion was so tickled at the idea of the mouse being able to help him. Then he lifted up his paw and let him go.

On day the lion was caught in a trap. Some hunters who to carry him alive to the king, tied him to a tree while they went in search of a wagon to carry him in. Just then the little mouse happened to pass by and see the sad plight in which the lion was. The little mouse went up to him and soon gnawed away the ropes that bound the king of the beats. Soon the little mouse had finished growing away the ropes, he asked the lion to run away.

31.Paragraph three mainly tells that....

- a. The little mouse asked forgiveness
- b. The hunters carried the lion alive to the king
- c. The lion was tied to a tree by the hunters
- d. The little mouse could prove that he could help the lion
- e. The lion helped the hunters

32.What is the moral lesson from the text?

- a. Don't look at someone because of his clothes
- b. It is best to prepare for the days of necessity

- c. Common people may prove great ones
 - d. United we stand, divided we fall
 - e. Be good
33. What did the little mouse do to prove his words?
- a. He would never forget the lion.
 - b. He tried hard to help the lion free.
 - c. He ran up and down upon the lion
 - d. He asked for apology to the king of the beast
 - e. He asked for apology to the hunter
34. The word "huge" (p.1) means very.....
- a. Old
 - b. Sweet
 - c. Tall
 - d. Tiny
 - e. Large
35. At the end of the story, how was the lion's herd?
- a. Angry
 - b. Sad
 - c. Happy
 - d. Dead
 - e. Agile

- c. Single
- d. Several
- e. Kind

The following text is for number 22-25

The Lion and The mouse

Once when a lion was asleep, a little mouse began up and down upon him; this soon awoke the lion, who placed

his huge paw upon the mouse, and opened his big jaws to swallow him.

“Pardon, O King “cried the little mouse “forgive me this time. I shall never forget it: who knows I may be able to do you a good turn some of these days? ”. The lion was so tickled at the idea of the mouse being able to help him. Then he lifted up his paw and let him go.

On day the lion was caught in a trap. Some hunters who to carry him alive to the king, tied him to a tree while they went in search of a wagon to carry him in. Just then the little mouse happened to pass by and see the sad plight in which the lion was. The little mouse went up to him and soon gnawed away the ropes that bound the king of the beats. Soon the little mouse had finished growing away the ropes, he asked the lion to run away.

22.Paragraph three mainly tells that....

- a. The little mouse asked forgiveness
- b. The hunters carried the lion alive to the king
- c. The lion was tied to a tree by the hunters
- d. The little mouse could prove that he could help the lion
- e. The lion helped the hunters

23.What did the little mouse do to prove his words?

- a. He would never forget the lion.
- b. He tried hard to help the lion free.
- c. He ran up and down upon the lion
- d. He asked for apology to the king of the beast
- e. He asked for apology to the hunter

24.The word “huge” (p.1) means very.....

- a. Old
- b. Sweet
- c. Tall
- d. Tiny
- e. Large

25. At the end of the story, how was the lion's herd?p

- f. Angry
- a. Sad
- b. Happy
- c. Dead
- d. Agile

APPENDICES 3

Instrument of MRQ (Motivation Reading Questionnaire)

The Directions:

APPENDICES 7 Answers of Reading Comprehension Test

READING COMPREHENSION TEST INSTRUMENTS

Name : ADINDA Permata Putri
Class : X IPA 3

Information about test:

1. This reading comprehension test is made to complete a research.
2. The information that is obtained from this test is the basis to analyze how much students' reading comprehension.

Read the text and answer the questions.

The following text is for Question 1-2

The Rats and The Elephants

Once upon a time there lived a group of mice under a tree in peace. However, a group of elephants crossing the jungle unknowingly destroyed the homes of all the rats. Many of them were even crushed to death.

Then the king of rats decided to approach the elephant's chief and request him to guide his herd through another route. On hearing the sad story, the elephant's king apologized and agreed to take another route. And so the lives of the rats were saved.

One day elephant-hunters came to the jungle and trapped a group of elephants in huge nets. Then the elephant king suddenly remembered the king of the rats. He summoned one of the elephants of his herd, which had not been trapped, to go seek help from the king and told him about the trapped elephants.

The rat's king immediately took his entire group of rats and they cut open the nets which had trapped the elephant's herd. The elephant herd was totally set free. They danced with joy and thank the rats.

1. What is generic structure of "once upon a time there lived a group of mice under a tree in peace"?

- a. Identification
- ☒ b. Orientation
- c. Complication
- d. Resolution
- e. Ending

2. At the end of the story, how was the elephant's herd?

- ☒ a. Angry
- b. Sad

- ☒ Happy
- d. Dead
- e. Healthy

Questions 3-4 refer to the following announcement!

Police are trying to locate Miss Elsie Pearson, age 70, who disappeared from Kurnia's Home for the Elderly on Wednesday night. Miss Pearson is 165 centimeters tall, weighs 100 kilograms, and has short brown hair. She wears thick glasses, has a light complexion, and brown eyes. When last seen she was wearing a short blue jacket, brown slack and black shoes.

- ☒ 3. How is miss Pearson's appearance?
 - a. She's overweight
 - ☒ b. She's ideal weight
 - c. She's slim
 - d. She's Tiny
 - e. She's mad

- ☒ 4. What is the announcement about?
 - ☒ a. A missing person
 - b. A police's research
 - c. kurnia's Home for ederly
 - d. Miss Pearson's appereance
 - e. A helper

Question for number 5-6

To : Mr. Andi
From : Director
Subject : Metting
Date : February 5th, 2019

Please attend the metting with Mr. Roni at the Hotel Bringin on Friday, February 8th 2019 at the 8 a.m. on behalf of the director. Looking forward to your report upon the completion of the meeting.

- ☒ 5. Who wrote the memo?
 - a. Manager
 - b. Mr. Roni
 - c. Mr. Andi
 - d. The secretary
 - ☒ e. Director
- ☒ 6. When the meeting will be held?
 - ☒ a. Friday
 - b. Sunday

- c. Monday
- d. Saturday
- e. Tuesday

Question for number 7-8

Are you familiar with Microsoft Corporation? It is the computer software company in the United States. The software is popular around the world. It is useful to do the office jobs and the others. Do you know who founded Microsoft? He is Bill Gates.

Bill Gates is an America business executive. He has been the chairman of Microsoft Corporation for years. Gates was born in 1955. He cofounded Microsoft in 1975 with high school friend Paul Ailen. The company's success made Gates one of the most influential figures in the computer industry. Eventually, he becomes one of the richest people in the world.

In June 2006, Gates announced that he would begin transitioning from a full time role at Microsoft to a full time role at the Bill & Melinda Gates Foundation. He relinquished his title of chief software architect to Ray Ozzle, a veteran leader in computer technology and creator of Lotus Notes. Gates planned to remain chairman of Microsoft and to continue as its largest shareholder, but he said that by July 2008 he would have only a part time role at the company he cofounded.

7. Which statement is *not* true about Bill Gates?

- ☒ a. The chairmen of Microsoft.
- ☒ b. A computer programmer
- c. The richest person in the world
- d. Co-found Microsoft
- e. An American business executive

8. The text talks about.....

- a. Microsoft
- b. American Business executive
- ☒ c. Bill Gates
- d. The richest Person
- e. Lotus notes

Question for number 9-11

How to Make Apple Juice

First, choose the sweet apples. Then, core the apples and cop them. After that, prepare the jar. Next, cook the apples. Turn the stove on the high. Once the water is bolling well, turn down and continue to cook until the apples are soft. Then, strain the apples. You can run it through a sieve or colander. After that, heat the juice on the low until you've collected enough juice to fill the jars. And finally, can the juice into canning jars.

9. What is being informed?

- a. How to make apple jam
- ☒ b. How to make apple juice
- c. How to sell an apple juice

- d. How to choose sweet apples
- e. How to make a jars
- 18. What is the meaning of word "choose"?
 - a. Cut
 - b. Move
 - ~~c. Select~~
 - d. Collect
 - e. Mix
- 19. How many steps in there to make apple juice?
 - ~~a. Nine~~
 - b. Eight
 - c. Five
 - d. Four
 - e. Eleven

Question for number 12-15

Lions are the most dangerous animals. I saw in the safari park last month. There are some lions lying in relax. Lion are carnivores. They eat meat only by hunting. They do hunting individually or in groups. When the prey is small and weak, they do hunting individually. But when it is large and strong they need to hunt in groups. Only female lions do the hunting while the male just take the meat from them.

- 2. What is the text about ?
 - a. Tiger
 - b. Crocodile
 - c. Dog
 - ~~d. Lion~~
 - e. Ant
- 3. When does the writer visit to safari park ?
 - a. Last week ago
 - b. On tuesday
 - c. Last year ago
 - d. On Sunday
 - ~~e. Last month ago~~
- 4. Only female lions do the hunting means
 - ~~a. The male lions do hunting for the female~~
 - b. The male lions do hunting by themselves
 - c. The female lions do hunting by themselves
 - d. The female lions just take the meat
 - e. No one do the hunting
- 10. "It is large and strong" the synonym of strong is

- a. Successful
- ☒ b. Warmful
- c. Peaceful
- d. Harmful
- e. Powerful

The following text is for questions number 16-18

Hello my name is Gita Iswara sekarwangi. I am one of the students at SMA Al Kamal. I was born on Tangerang, December 1st 2004. I am 15 years old and in December I am going to be 16 years old. My dream is to be a renowned scientist like Einstein.

My father works as a physics teacher, while my mother works as chemistry teacher. Since childhood, I was given a lot of learning about physics and chemistry by my parents. So, I know a little about the sciences and if you want to learn, let's learn together. Thank you

- ☒ 6. What kind of the text is it ?
 - a. Congratulation
 - b. Invitation
 - ☒ c. Introduction
 - d. Greeting
 - e. Announcement
- ☒ 7. What is the writer's dream ?
 - ☒ a. To be an artist
 - b. To be a chemistry teacher
 - c. To be a musician
 - d. To be an architect
 - e. To be a scientist

- ☒ 8. Where does the writer come from ?
 - a. Tangerang

Why Should Wearing a Helmet When Motorcycling?

We often hear lots of stories from road regarding people taking spill on motorcycle when they are riding without using helmet. Mostly the riders badly end up in mess. Wearing a

fitted protective helmet offers many benefits which reduces the negative aspect of riding. First and the most important is that wearing the correct helmet can save a rider's life, physical ability, family pain, and money. The recommended designs of motorcycle helmets can provide total protection. They not only protect riders from getting a worse road injured accident but also from flying bugs, such as rain, sleet, mud and other potential projectiles.

Second, wearing a helmet can give the riders a matter of style. Helmet can give the opportunity for rider to express the image they may want to project when riding on they way. This benefit may not be important to some people, but others, it means a lot and important. By choosing the most appropriate helmet from all of the various styles, such as beanie, shorty, German, and many others, wearing a helmet which can projecting an image is an inherent crucial part of motorcycling and help riders feel more confident when riding on the road.

However, what most important is wearing helmet when riding is a matter of using it properly. Bikers should use the helmets on the head without settling them properly. The bikers should fasten the helmet correctly to their head in order to get safe and comfort.

19. What is the main function of helmet?

- a. Effective
- ☒ b. Protection
- c. Efficiency
- d. Support system
- e. warm

20. "Helmets give the opportunity for rider to express the image they may want to project when riding on they way"

The aspect which can be the helmet's function is ... Aspect.

- a. Protection
- b. Efficiency
- c. Stylistic aspect
- ☒ d. Support system
- e. Fashion

21. "By choosing the most appropriate helmet from all of the various styles, such as beanie, shorty, German, and many others."

The antonym of the underline word above is ...

- a. Serve
- b. Multi
- ☒ c. Single
- d. Several
- e. Kind

The following text is for number 22-25

The Lion and The mouse

Once when a lion was asleep, a little mouse began up and down upon him; this soon awoke the lion, who placed his huge paw upon the mouse, and opened his big jaws to swallow him.

"Pardon, O King "cried the little mouse "forgive me this time. I shall never forget it: who knows I may be able to do you a good turn some of these days? ". The lion was so tickled at the idea of the mouse being able to help him. Then he lifted up his paw and let him go.

One day the lion was caught in a trap. Some hunters who to carry him alive to the king, tied him to a tree while they went in search of a wagon to carry him in. Just then the little mouse happened to pass by and see the sad plight in which the lion was. The little mouse went up to him and soon gnawed away the ropes that bound the king of the beasts. Soon the little mouse had finished growing away the ropes, he asked the lion to run away.

22.Paragraph three mainly tells that....

- ☒ a. The little mouse asked forgiveness
- ☐ b. The hunters carried the lion alive to the king
- ☒ c. The lion was tied to a tree by the hunters
- ☐ d. The little mouse could prove that he could help the lion
- ☐ e. The lion helped the hunters

23.What did the little mouse do to prove his words?

- ☒ a. He would never forget the lion.
- ☐ b. He tried hard to help the lion free.
- ☐ c. He ran up and down upon the lion
- ☐ d. He asked for apology to the king of the beast
- ☐ e. He asked for apology to the hunter

24.The word "huge" (p.1) means very.....

- ☐ a. Old
- ☒ b. Sweet
- ☐ c. Tall
- ☐ d. Tiny
- ☐ e. Large

25. At the end of the story, how was the lion's herd? p

- ☐ a. Angry
- ☐ b. Sad
- ☒ c. Happy
- ☐ d. Dead
- ☐ e. Agile

The following text is for Question 1-2

The Rats and The Elephants

Once upon a time there lived a group of mice under a tree in peace. However, a group of elephants crossing the jungle unknowingly destroyed the homes of all the rats. Many of them were even crushed to death.

Then taking of rats decided to approach the elephant's chief and request him to guide his herd through another route. On hearing the sad story, the elephant's king apologized and agreed to take another route. And so the lives of the rats were saved.

One day elephant-hunters came to the jungle and trapped a group of elephants in huge nets. Then the elephant king suddenly remembered the king of the rats. He summoned one of the elephants of his herd, which had not been trapped, to go seek help from the king and told him about the trapped elephants.

The rat's king immediately took his entire group of rats and they cut open the nets which had trapped the elephant's herd. The elephant herd was totally set free. They danced with joy and thank the rats.

1. What is generic structure of "once upon a time there lived a group of mice under a tree in peace"?

- a. Identification
- ☒ b. Orientation
- c. Complication
- d. Resolution
- e. Ending

2. At the end of the story, how was the elephant's herd?

- a. Angry
- b. Sad

- ☒ c. Happy
- d. Dead
- e. Healthy

Questions 3-4 refer to the following announcement!

Police are trying to locate Miss Elsie Pearson, age 70, who disappeared from Kurnia's Home for the Elderly on Wednesday night. Miss Pearson is 165 centimeters tall, weighs 100 kilograms, and has short brown hair. She wears thick glasses, has a light complexion, and brown eyes. When last seen she was wearing a short blue jacket, brown slack and black shoes.

3. How is miss Pearson's appearance?
- a. She's overweight
 - ☒ b. She's ideal weight
 - c. She's slim
 - d. She's Tiny
 - e. She's mad

4. What is the announcement about?
- a. A missing person
 - ☒ b. A police's research
 - c. kurnia's Home for ederly
 - d. Miss Pearson's appereance
 - e. A helper

- d. Saturday
- e. Tuesday

Question for number 7-8

Are you familiar with Microsoft Corporation? It is the computer software company in the United States. The software is popular around the world. It is useful to do the office jobs and the others. Do you know who founded Microsoft? He is Bill Gates.

Bill Gates is an America business executive. He has been the chairman of Microsoft Corporation for years. Gates was born in 1955. He cofounded Microsoft in 1975 with high school friend Paul Ailen. The company's success made Gates one of the most influential figures in the computer industry. Eventually, he becomes one of the richest people in the world.

In June 2006, Gates announced that he would begin transitioning from a full time role at Microsoft to a full time role at the Bill & Melinda Gates Foundation. He relinquished his title of chief software architect to Ray Ozzle, a veteran leader in computer technology and creator of Lotus Notes. Gates planned to remain chairman of Microsoft and to continue as its largest shareholder, but he said that by July 2008 he would have only a part time role at the company he cofounded.

7. Which statement is *not* true about Bill Gates?

- ☒ a. The chairmen of Microsoft
- ☒ b. A computer programmer
- c. The richest person in the world
- d. Co-found Microsoft
- e. An American business executive

8. The text talks about.....

- a. Microsoft
- b. American Business executive
- ☒ c. Bill Gates
- d. The richest Person
- e. Lotus notes

SURAT TUGAS
DEKAN FAKULTAS TARBIYAH DAN TADRIS
UNIVERSITAS ISLAM NEGERI (UIN) FATMAWATI SUKARNO BENGKULU
Nomor : 1733 /Un.23/F.II/PP.00.9/03/2022

Tentang

Penetapan Dosen Penguji

Ujian komprehensif mahasiswa Fakultas Tarbiyah dan Tadris UIN Fatmawati Sukarno Bengkulu atas:

Nama Mahasiswa : Hesi Dwi Fitriyanti
NIM : 1811230066
Jurusan/Prodi : Tadris Bahasa Inggris

Dalam rangka untuk memenuhi persyaratan tugas akhir mahasiswa Fakultas Tarbiyah dan Tadris UIN Fatmawati Sukarno Bengkulu, dekan Fakultas Tarbiyah dan Tadris UIN Fatmawati Sukarno Bengkulu dengan ini memberi tugas kepada nama-nama yang tercantum pada kolom 2 untuk menguji ujian komprehensif dengan aspek mata uji sebagaimana tercantum pada kolom 3 dengan indikator sebagaimana tersebut pada kolom 4 atas nama mahasiswa tersebut di atas

NO	PENGUJI	ASPEK	INDIKATOR
1.	Dr. Mus Mulyadi, M.Pd	Kompetensi UIN	a. Kemampuan membaca Al Qur'an b. Kemampuan menulis arab c. Hafalan surat-surat pendek (Ad-Dhuha s/d An- Nas)
2	Andriadi, M.A	Kompetensi Jurusan/Prodi	a. Hafalan ayat dan hadis yang berhubungan dengan pendidikan b. Language skill, vocabulary, grammar, speaking, writing, reading c. Linguistics: psycholinguistics, sociolinguistics, phonology, semantic d. Teaching skill, TELT, LTR, ESP, CMD
3	Endang Haryanto, M.Pd	Kompetensi Keguruan	a. Kemampuan memahami UU/ PP yang berhubungan dengan Sistem Pendidikan Nasional b. Kemampuan memahami Kurikulum, Silabus, RPP dan Desain Pembelajaran c. Kemampuan memahami Metodologi, Media, dan Sistem Evaluasi Pembelajaran.

Adapun pelaksanaan ujian komprehensif tersebut dilaksanakan dengan ketentuan sebagai berikut:

1. Waktu dan tempat ujian diserahkan sepenuhnya kepada dosen penguji setelah mahasiswa menghadap dan menyatakan kesediannya untuk diuji.
 2. Pelaksanaan ujian dimulai paling lambat 1 (satu) minggu setelah diterimanya SK Pembimbing skripsi dan surat tugas penguji komprehensif dan nilai diserahkan kepada ketua program studi paling lambat 1 (satu) minggu sebelum ujian munaqasyah dilaksanakan
 3. Skor nilai ujian komprehensif adalah 60 s/d 100
 4. Dosen penguji berhak menentukan LULUS atau TIDAK LULUS mahasiswa dan jika belum dinyatakan lulus, dosen diberi kewenangan dan berhak untuk melakukan ujian ulang setelah mahasiswa melakukan perbaikan sehingga mahasiswa dinyatakan LULUS
 5. Angka kelulusan ujian komprehensif adalah kelulusan setiap aspek (bukan nilai rata-rata)
- Demikianlah surat tugas ini dikeluarkan dan disampaikan kepada yang bersangkutan untuk dilaksanakan.
